"The best way to keep kids learning over the summer break is to make it fun, engaging, and interactive"

Dear Parents,

We believe that engaging in learning activities during the summer break helps children maintain their academic progress and provides them with a fun and interactive way to continue learning.

In our endeavour to promote independent learning, self-discipline, and time management skills in our young Shiv Jyotians and provide an opportunity for parents to be involved in their child's learning and progress, we have carefully created a set of fun learning activities that are designed to engage learners in enjoyable and entertaining experiences. We encourage our children to complete them at their own pace over the summer break.

Reading can take us on amazing adventures, introduce us to new ideas, and help us learn about different cultures and ways of life. Students will share their reading experience with their classmates and discuss the stories and characters with them.

Writing is an excellent way to express our thoughts and feelings, improve our vocabulary, and enhance our writing skills. Therefore, we want to encourage our students to make the most of their time at home by indulging in reading and writing.

Furthermore, we also suggest that children help their family members with small tasks at home. They can assist their parents and grandparents with cooking, cleaning, gardening, or any other household chore that needs attention. Spending quality time with grandparents not only creates happy memories and strengthens family bonds but also promotes intergenerational communication and understanding, benefiting both children and grandparents.

We wish you a happy and enjoyable summer break, and we look forward to seeing you in the new academic year.
